PROFESSIONAL SUMMARY

Computer Science graduate with professional experience building enterprise mobile, web and backend applications. Skilled in Flutter, React, Next.js, Node.js, NestJS, PostgreSQL and Kubernetes, with hands-on experience delivering production systems used by businesses and government organizations.

EDUCATION

University of Dar es Salaam

Bachelor of Science in Computer Science (GPA: 4.6/5.0)

2022–2025

Dar es Salaam

PROFESSIONAL EXPERIENCE

Software Developer

Softnet Technologies Ltd

2025–Present

Dar es Salaam

- Develop enterprise Flutter and Android applications used by government agencies, banks and private organizations across Tanzania.
- Contributed to SoftVFD, an Electronic Fiscal Device (EFD) application serving over 6,000 active users and more than 3,000 Google Play downloads.
- Built mobile frontends for enterprise Visitor Management and Biometric Attendance systems deployed across multiple government organizations.
- Integrated mobile applications with REST APIs and SQL-based backend systems while implementing secure authentication and biometric features.
- Participated in Docker, Kubernetes and CI/CD deployment workflows.

Frontend Developer Intern

DHIS2 Tanzania

2024

Dar es Salaam

- Developed React applications integrated with backend APIs.
- Completed DHIS2 platform training while contributing to national health information systems.

Software Developer Intern

CATS Tanzania

2023

Dar es Salaam

- Developed frontend interfaces using React.
- Contributed to backend development using PHP.

PROFESSIONAL PROJECTS

SoftVFD Flutter, .NET, REST APIs

- Developed the Flutter frontend for Tanzania's Electronic Fiscal Device (EFD) application serving 6,000+ active users and 3,000+ Google Play downloads.
- Integrated the mobile application with .NET backend services through REST APIs.
- Maintained production features, resolved defects and improved application performance and user experience.

SoftBI Mobile Flutter, PostgreSQL, Apache Superset

- Developed enterprise business intelligence mobile application for a banking client.
- Integrated Apache Superset dashboards into Flutter applications for real-time reporting.

- Built reporting functionality powered by PostgreSQL and REST APIs.

Visitor Management System Kotlin, .NET, REST APIs

- Developed the Android frontend for an enterprise visitor management system deployed across five government and enterprise clients.
- Implemented biometric verification, visitor registration and QR-code workflows.
- Integrated the mobile application with .NET backend services through REST APIs.

Biometric Attendance System Java, .NET, REST APIs

- Developed the Android frontend for a biometric attendance solution deployed in government organizations.
- Implemented fingerprint authentication, attendance tracking and employee management features.
- Integrated the mobile application with .NET backend services through REST APIs.

PERSONAL PROJECTS

PesaTrack Flutter, SQLite, Riverpod

- Designed and developed a personal finance application independently and published it on Google Play.
- Implemented budgeting, expense tracking, financial analytics and offline-first local data storage.
- Built Material Design user interfaces with biometric authentication and interactive spending insights.
- Google Play Store

IntelyFlow SaaS Next.js, NestJS, PostgreSQL

- Designed and developed a multi-tenant SaaS platform currently used by six businesses.
- Built authentication, role-based access control and REST APIs supporting multiple organizations.
- Designed scalable backend architecture for inventory and business operations.

TECHNICAL SKILLS

Core: Flutter • Kotlin • Java • React • Next.js • Node.js • NestJS • PostgreSQL • Kubernetes • Docker

Languages: Dart, TypeScript, JavaScript, Kotlin, Java, SQL

Databases: PostgreSQL, MySQL, SQL Server, SQLite, Supabase

Tools: Git, Jenkins, GitHub Actions, GitLab CI/CD, Android Studio, VS Code, Postman, Apache Superset

CERTIFICATIONS

- | | |
|---|----------|
| • CompTIA Security+ (SY0-701) | Jul 2026 |
| • Certified Kubernetes Application Developer (CKAD) | Jun 2026 |
| • WSO2 Certified API Developer | May 2026 |
| • WSO2 Certified API Practitioner | May 2026 |
| • Android ATC Certified Android Developer | Nov 2025 |
| • Android ATC Certified Flutter Developer | Oct 2025 |
